

Technical Information

{rokzoom album=|hardware| title=|AMW Pro-X Hardware|}images/scan4.jpg{/rokzoom}

Here in the technical section, we will introduce you to our our various zoo animals, give you access to the zoo's library of motor assembly instructions for you to download, as well as computer simulation engine data files. You can also find a downloadable catalog of all of our products, and a detailed list of tools that are required for you to utilize our motors in your rockets.

In the future, check back here for new and updated motor data files and other user support technical items to assist you with the use of AMW Pro-X rocket motors.

Interested in who's behind keeping the animals in line? Check out our zoo keepers. If you need ordering information, you can find a list of our dealers as well as convenient order forms in other parts of the site. Still can't find your answer? You might find it on our Frequently Asked Questions page.
